

Nottingham Dry SERC 2017-2018 Season

Scenario:

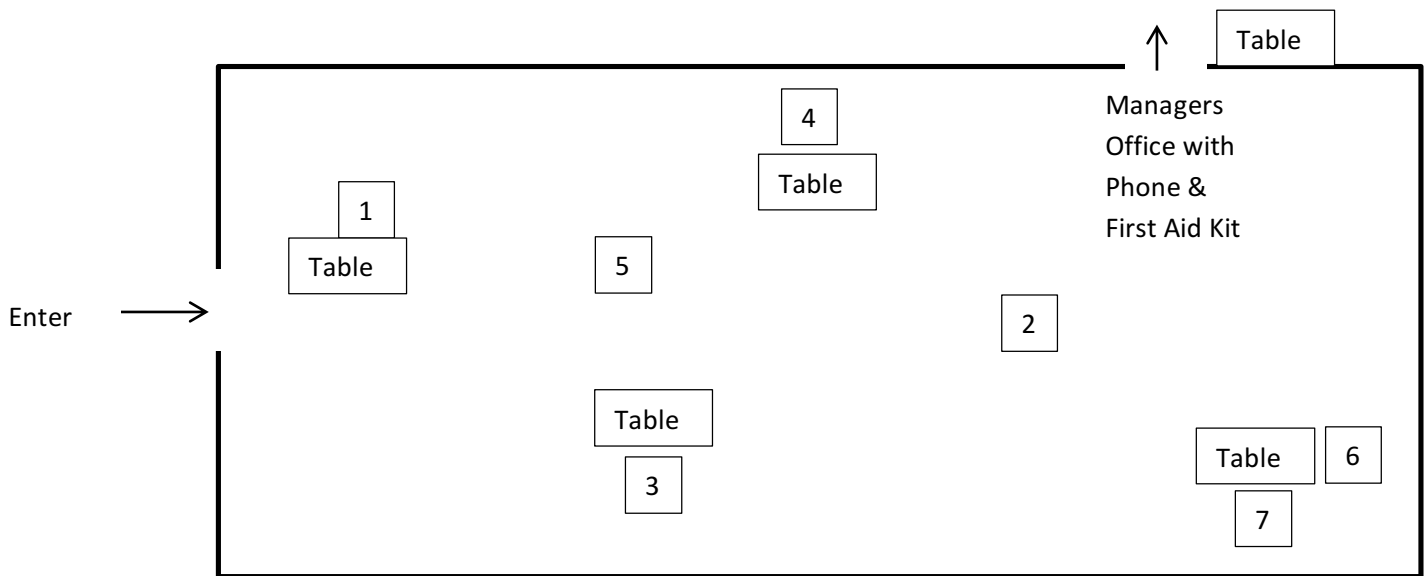

They are a group of cycling enthusiasts who have had a long day off road biking through the Newberry National Park. After starting the day in the town of Stampstead they had managed to reach the outskirts of the National Park where they would be staying the night in The Burnston Hotel in a town called St. Groupston. As a group they decided after it had been such a hot and tiring day where temperatures reached 30 degree centigrade they would reward themselves with a meal out. They fancied a pizzeria so headed to Franks Restaurant.

When asked all casualties know the following:

They are at Franks Restaurant in St. Groupston just outside Newbury National Park. It has been a very hot day and they have all participated in some sort of physical activity that day. All a bit tired and just out for a relaxing meal. Only casualty 2 knows where the phone and first aid kit is and casualty 1 has a mobile phone but the battery is dead.

The teams will have 30 seconds for their brief before entering the incident.

Full First Aid Kits and the landline phone in the manager's office is considered a simulated method of communication

Brief:

1	Chest Pains	6	Distressed Parent
2	Broken arm	7	Child UNB
3	Heat Exhaustion		
4	Seizure		
5	Bleeding leg		

Equipment Needed:

1	Tables x5	8	Child CPR Manikin
2	Chairs x12	9	15 pieces of blank paper and 4 Pens
3	Cutlery set and plate x4	10	Sign which says Manager's Office
4	Mobile with no Battery (sign stuck on phone to make it clear)	11	Collection of Bags
5	Desk Phone (land line phone attached with the cable)	12	Representative sick
6	Empty alcohol cans x8	13	Fake blood
7	Shorts – Casualty 5	14	Hoody for child manikin

Casualty 1	
Name	Steph/ Bruno
Type	Chest Pains
Communication	You are too panicked or in too much pain to remember where the phone is
First Aid	None
Friends	Casualty 6 is your mother/father and casualty 7 is your brother
Details	<p>You are on the summer holidays between years at university. Your family have a holiday home in St. Groupston and every year you spend the summer here and get a summer job in the restaurant. You are working as the receptionist for the restaurant and will be sitting at the front desk when the SERC starts. You will be busy sorting through paper and will ask for the team's reservation. If they stop to talk keep them talking but if they just run past you keep looking through your papers. After 30 seconds regardless of what the teams do you will develop chest pains.</p> <p>If you are facing casualty 6 and 7 or you hear your mothers (6) panicked voice and you are not reassured by the rescuers you start to panic more as you see your mother and brother are in trouble.</p> <p>Your mother/father is casualty 6 and brother is casualty 7</p>

Casualty 2	
Name	Nick/ Helen
Type	Broken Arm
Communication	You know the phone and first aid kit is in the manager's office when asked
First Aid	None
Friends	Casualty 4 is a friend who comes to the restaurant often
Details	<p>You have lived in St. Groupston all your life and you have been a waiter at the restaurant for 2 years now. While clearing up some plates you dropped a knife on the floor. While walking back to the tables you accident stand on the knife which causes you to slip over and land on your arm just before the SERC starts. (before each SERC you start on the floor after you have slipped over).</p> <p>You know casualty 4 has a history of seizures and it is normal for them to have two seizure as they are a regular customer</p>

Casualty 3	
Name	Oscar/ Ingrid
Type	Heat Exhaustion
Communication	None
First Aid	None
Friends	Friend – Casualty 5
Details	You and your friend (casualty 5) come from Peterborough and have decided to go on a biking holidays around the national park. You are a bit tired after a long day. You have been out biking for the day and have come to the restaurant for a relaxing meal. You are waiting for your drinks as your friend (casualty 5) heads to the toilet. While you sit on your own at the table you start to feel the effects of heat exhaustion. You have hardly drunk any water all day and it's been very hot you feel dizzy and a headache is getting worse.

Casualty 4	
Name	David/ Holly
Type	Seizure
Communication	None
First Aid	None
Friends	Casualty 2 is a waiter but as you are a regular you know them well
Details	You are a regular customer to the restaurant and you have a history of seizures. After being served your food and the SERC begins you have a seizure which leads to you falling off your chair and have the seizure on the floor. Whilst you have your seizure you are stick close to the chair and keep hitting it with your arm unless it is moved away. You know no one else in the restaurant. You have two seizures the first one will last 20 seconds then you will be very tired and say nothing coherent so after 10 more seconds you have another seizure which will last for 30 seconds. After that you will be very tired and you will only be able to say your name, before falling asleep. Casualty 2 knows your history of seizures and that 2 is normal

Casualty 5	
Name	Patrick/ Rachel
Type	Bleeding leg
Communication	None
First Aid	None
Friends	Friend – Casualty 3
Details	You have been out biking in the national park and your chain snapped slicing your leg open. At the time you were enjoying yourself so much you just left it as it was not bleeding too much. When you got to the hotel it had started to heal over so again you thought nothing of it and left it. As you walk across the restaurant towards the toilets you managed to slice your leg across the sharp edge of the table opening up the wound from earlier in the day. This is now very painful and you shout in pain as the back of your calf is bleeding where the broken chain hit you earlier in the day.

Casualty 6	
Name	Matt/Anna
Type	Distressed Parent
Communication	None
First Aid	None
Friends	Your children are casualty 7 and 1
Details	You are on the summer holidays with your two children. You have been walking with your children all day: one of them is casualty 1 and works at the restaurant; your other child is casualty 7 who is sitting next to you at the table. Your family have a holiday home in St. Groupston and every year you spend the summer here. After 10s of the SERC starting or the rescuers approach you, you start panicking as your son/ daughter is not responding to anything you say and looks to be asleep. He was completely fine a few minutes ago you had just got back from the toilet and he was like this. You are his parent so start to panic a lot shouting his name.

Casualty 7	
Name	Jack/ Ella
Type	Child Manikin
Communication	None
First Aid	None
Friends	The parent is casualty 6/ sibling casualty 1
Details	You are on your summer holidays from school and your family have a holiday home in St. Groupston so every year you spend the summer here. You have been walking with your mother (6) and sibling (1) all day is very tired. Your mother has just gone to the toilet so you decided to let your eyes close and you are suddenly sick down yourself the go unconscious not breathing whilst sitting on the chair at the table.

You are a group of cycling enthusiasts who have had a long day off road biking through the Newberry National Park. After starting the day in the town of Stampstead you managed to reach the outskirts of the National Park where you are staying the night in The Burnston Hotel in a town called St. Groupston. As a group you decided after it had been such a hot and tiring day where temperatures reached 30 degree centigrade you would reward yourselves with a meal out. You fancied a pizzeria so headed to Franks Restaurant on Drake road.

- 1.) You will be given the brief to read before the start of the dry SERC
- 2.) You have 30 seconds to read it.
- 3.) Anything that is taped with ***** and ***** tape are off limits, this is including the any walls.
- 4.) The SERC only starts when you hear the whistle by the judge, and stop at the second one by the judge.
- 5.) Judges will all be in white
- 6.) Communication devices are simulated
